

SEABELO BLESSING MOTLOUNG

Software Development Graduate Candidate | Junior Developer | Internship & Learnership Applicant

Midrand, South Africa | 076 830 2904 | seabelomotlounge@gmail.com | github.com/motloungeabelo-gif

Open to: software graduate programmes, internships, learnerships, junior developer, web developer intern, junior IT support and IT admin roles.

PROFESSIONAL PROFILE

Motivated final-year Diploma in Software Development student with hands-on academic and portfolio experience in web development, software projects, database design, mobile development exposure and IT documentation. Strong foundation in C#, Java, SQL, JavaScript, HTML/CSS, ASP.NET MVC, WPF, Kotlin and PHP, with practical use of Visual Studio, VS Code, GitHub, Android Studio, Oracle SQL Developer, MySQL, XAMPP and MS Office. Known for being reliable, respectful, organized, coachable and eager to learn. Ready to contribute to a technology team while growing through a graduate programme, internship, learnership or junior developer role.

RECRUITER SNAPSHOT

Career focus: Software development, web development, full-stack support, databases, junior IT support

Main strengths: Problem solving, debugging mindset, documentation, communication, teamwork, adaptability

Best-fit programmes: Graduate programmes, internships, IT learnerships, software developer trainee roles

Work readiness: Available immediately for entry-level opportunities and structured training programmes

TECHNICAL SKILLS

- **Languages:** HTML, CSS, JavaScript, C#, Java, SQL, Kotlin and PHP
- **Frameworks & platforms:** ASP.NET MVC, .NET Framework, WPF, Android Studio, PHP/MySQL and XAMPP
- **Databases:** Oracle SQL Developer, MySQL, database design, ERD concepts, normalization and PL/SQL exposure
- **Tools:** Visual Studio 2022, VS Code, GitHub, MS Office, cPanel, XAMPP and Android Studio
- **Software practices:** requirements analysis, UI design, debugging, testing, documentation, version-control awareness and deployment exposure
- **Admin & digital skills:** document preparation, data capturing, internet research, presentations, filing support and professional email communication

SELECTED TECHNICAL PROJECTS

StudySync Academic Productivity Web Application | *Web application, requirements analysis, system design and deployment exposure*

- Worked on a student-focused academic productivity solution involving planning, user flows, prototype screens and project presentation deliverables.
- Demonstrates ability to understand requirements, explain system design, document features and present a complete software solution clearly.

Student Planner / Productivity Web App | *HTML, CSS, JavaScript*

- Built a responsive web app concept for organizing study tasks, tracking progress and improving productivity for students.
- Applied front-end structure, styling, JavaScript interaction, user-focused layout and clean content presentation.

SpendWise Budgeting App | *Kotlin, Android Studio, Room/SQLite concepts*

- Developed mobile-app features for budgeting, transactions, goals and dashboard summaries, including progress indicators and category spending views.
- Shows exposure to Android UI work, local data handling, date formatting, logic flow and finance-focused user experience.

Contract Monthly Claim System | *C#, WPF, ASP.NET MVC concepts, SQL/EF concepts*

- Built and improved academic project features for lecturer claim submission, claim review, document upload, automated total calculation and role-based workflow logic.
- Demonstrates C# development, form handling, validation thinking, workflow design, documentation and application troubleshooting.

Business and Portfolio Websites | *HTML, CSS, JavaScript, hosting exposure*

- Created responsive website pages for business and portfolio-style projects, including navigation, content sections, forms, gallery pages and mobile-friendly layouts.
- Gained exposure to web presentation, SEO basics, accessibility improvements, clean layout decisions and deployment preparation.

Database Design and SQL Projects | *Oracle SQL Developer, MySQL, ERDs, normalization*

- Completed academic database work involving entity relationship diagrams, table design, SQL queries, normalization and database theory.
- Shows understanding of structured data, relationships, constraints, query logic and organized information management.

EDUCATION

IIE Rosebank College, Pretoria Campus

Diploma in Software Development - Final Year / NQF 6 Candidate

Relevant focus: programming, web development, databases, systems analysis, software design, documentation and project work.

Sonrise Christian School

National Senior Certificate, 2023 | Completed Grade 1 to Grade 12

CERTIFICATIONS & ACHIEVEMENTS

- Starter Competency Certificate for End-User Computing - SkillsPro Group / Futurekids / MICT SETA, 2021
- Completed modules: MS Access 2013, Basic Concepts of IT, Internet and MS PowerPoint 2013
- Certificate of Appreciation - IIE Rosebank College Pretoria Mentorship Programme, October 2025
- Served as a school prefect at Sonrise Christian School, demonstrating responsibility, discipline and leadership
- Character/reference letter available from Sonrise Christian School

LEADERSHIP, COMMUNICATION & WORK READINESS

- **Mentorship:** Participated in the Rosebank College Mentorship Programme, showing dedication, communication and student support.
- **Leadership:** Served as a school prefect and developed responsibility, discipline, teamwork and accountability.
- **Communication:** Comfortable preparing academic documents, presentations, email communication and clear written explanations.
- **Professional approach:** Respectful, reliable, punctual, organized, proactive, adaptable and willing to learn from feedback.
- **Workplace value:** Can support development tasks, testing, documentation, admin/IT support and structured graduate-programme learning.

ROLES TARGETED

Software Developer Intern | Graduate Software Developer | Junior Developer | Web Developer Intern | Full-Stack Developer Intern | IT Graduate Programme Candidate | IT Learnership Candidate | Junior IT Support | Data Capturer / IT Admin Support

AVAILABILITY & SUPPORTING DOCUMENTS

- **Availability:** Immediately available for internships, learnerships, graduate programmes, junior developer roles and entry-level IT opportunities.
- **Supporting documents available on request:** academic record/transcript, certificates, reference letter and project links.
- **References:** Available on request.
